DIRECTOR’S REPORT

Digital images of the propeller removed from the water have been sent to USACE for their review. Hopefully their archaeologist will agree that it is not historically significant. However, we will have to send down divers if they disagree. This process will take about two weeks and cost another $15,000 or so.

The pre-construction meeting with L. L. & F. was held this week. They should begin the levee relocation within the next seven to ten days.

Hamilton/Lummus has been required to put a significant amount of money down to hold the price on the dry stack building being purchased from Golden Giant. They have asked for reimbursement. Apparently, this is normal construction practice and Damian Associates recommends that we agree to the reimbursement.

ADJOURN

The meeting was adjourned at 7:00 p.m. on motion by Ms. Garcia, seconded by Mr. Jones with all present voting aye.
