

Brooks Bass
Mayor

Tim Kelty
City Manager

Freeport LNG has issued a final update regarding today's incident:

"The incident at Freeport LNG has been stabilized and we are in the early stages of our investigation of the event. As noted previously, there were no injuries, and all personnel have been accounted for. There is no threat to the surrounding community."

The City of Freeport will continue to monitor the situation and will post any updates we receive on our website, social media, and this Everbridge System.
